

Pressure, Power, and Heat

By AlturaSolutions Communications

Dated: Jul 14, 2010

The all-new Boxxer 323 from HydraMaster allows technicians to clean hard-surface floors and pressure wash surfaces using a powerful 23-horsepower motor, up to 2,500 psi, and—get this—instant 210-degree Fahrenheit heated water

The all-new Boxxer 323 from HydraMaster allows technicians to clean hard-surface floors and pressure wash surfaces using a powerful 23-horsepower motor, up to 2,500 psi, and—get this—instant 210-degree Fahrenheit heated water.

Heat improves cleaning effectiveness, so surfaces are cleaned faster, more thoroughly, often with less chemical, and with better results.

The Boxxer 323 is perfect for residential, commercial, restoration, and pressure-washing jobs. And because it is so effective, it helps you build a reputation as the best in your area and increase profits.
