

The New Generation ECO-500 Makes Its ISSA Debut

By AlturaSolutions Communications

Dated: Aug 21, 2010

The ECO-500, which will be on display at the upcoming ISSA tradeshow

Everyone knows the ECO-500 from CFR is a deep-cleaning recycling carpet extractor that boosts worker productivity and reduces the amount of water and chemical used for carpet cleaning by as much as seven times.

But that's not all. The ECO-500, which will be on display at the upcoming ISSA tradeshow, is loaded with lots of practical features such as a front-mounted drain hose for fast emptying; rear-mounted control panels/power outlets with sealed membrane switches; and easy-access filters for routine maintenance and cleaning.

For more information, visit www.cfrcorp.com, or call toll-free: 800-533-2557.
