

At the ISSA Tradeshow, Be Sure to Ask Why and How

By AlturaSolutions Communications

Dated: Aug 26, 2010

Sustainability Dashboard Tools' Web-based software program is designed for cleaning professionals to measure their businesses' use of natural resources and the greenhouse gas emissions they generate.

At the upcoming ISSA tradeshow, attendees will hear a lot about sustainability.

Why? The world's growing population and dwindling natural resources require that we use resources more responsibly.

How? Sustainability Dashboard Tools' Web-based software program is designed for cleaning professionals to measure their businesses' use of natural resources and the greenhouse gas emissions they generate.

The Dashboard is easy to use, offering tips and suggestions to help jansan businesses cut costs and become more efficient and competitive while benefiting their facilities, employees, community, and environment.

###

bout Sustainability Dashboard Tools, LLC

Sustainability Dashboard Tools, LLC, has created a new Web service technology designed specifically for cleaning professionals. The company's CEO is Stephen Ashkin, President of The Ashkin Group and Executive Director of the Green Cleaning Network; its COO is Cynthia Schultz.

Sustainability Dashboard Tools' allows users to measure the natural resources their businesses use and the greenhouse gas emissions they generate. Armed with this information, businesses can make commonsense changes that reduce their impact on the environment. Such changes save businesses money and make them more efficient and competitive while also benefiting their facilities, employees, and local community as well as the environment.
