

BURNISHER

Powr-Flite introduces the 20-inch Millennium Electric burnisher, available in 1,200, 1,600 and 2,000 revolutions per minute (RPM) models. Millennium Electric provides optimum results with all types of floor surfaces, finishes and burnishing pads. This machine has a patented, super-durable, rotational-molded, one-piece housing that absorbs vibrations, improving operation and ease of use and enhancing worker productivity to help provide the high-gloss shine your customers want.
