Buzzwords with Meaning

CFR, manufacturer of filtering and recycling carpet extractors, says their equipment is faster, cleaner, and Greener.

Those are more than buzzwords. With the CFR system, carpets dry faster because of its Rapid Recovery wand technology.

And because CFR extractors do not need to be refilled as often, the job gets done faster.

It's cleaner because the Rapid Recovery system flushes soils out of carpet fibers.

And it's Greener, because the amount of chemicals needed for carpet cleaning is reduced dramatically.

About CFR, a Tacony Company

CFR designs and manufactures a complete range of eco-friendly carpet cleaning systems and high performance specialty tools with an innovative, patented technology that is radically different from other carpet cleaning systems. Continuous Flow Recycling (CFR) technology provides superior moisture-controlled cleaning, faster drying times, and increased cleaning productivity that is unmatched compared to standard carpet extractors on the market today. Through a state-of-the-art recycling filtration system, coupled with moisture-controlled atomization wand technology to minimize carpet moisture, CFR is the Greenest carpet cleaning system in the industry today.
