BR 750 takes on large spaces

October 12, 2006

The BR 750 Cylindrical Brush Scrubber from Tornado Industries is a walk-behind machine designed for cleaning large areas in schools, warehouses and office buildings.

Featuring rotation speeds of 1,500 rpm, the BR 750 can be used to clean all kinds of hard-surface floors, including quarry tiles, rubber floors, and uneven or hard-to-clean floors, the company said. The BR 750 also features a 26-inch cleaning path, a 21-gallon solution and recovery tank and a 37-inch squeegee.

Advertisement:

The advertisement banner features a blue and white thermal imaging device on the left. The text "ThermalWave II" is prominently displayed in a large, bold, blue font. Below it, the website "www.bluelineequip.com" is written in white on a dark blue background. On the right side, the "BLUELINE EQUIPMENT CO." logo is shown in blue and white.
