Press release date: May 2, 2011

One of the unique things about the effective, high-performing bioactive product ES680 Super Floor Degreaser from Enviro-Solutions is that it not only cleans surfaces but eats contaminants as well. What's more, it keeps on eating contaminants long after cleaning is over. Green-certified ES680, made from bacteria, enzymes, nutrients, and surface cleaning agents, makes soiled, contaminated, and sticky surfaces in theaters and kitchens cleaner, less slippery, removing malodors. In fact, it is so effective it even eliminates the feeding sources for insects, helping to get rid of them too.
