NEW BURNISHERS SMOOTH OUT THE GLOSS

Tornado® announces a new line of high-speed burnishers with precision-balanced weight distribution and pressure to ensure smooth, effortless operation and maneuverability. These features also improve worker productivity as they produce a brilliant, high-gloss shine.

The P Series P1600 and P2000 Glazers™ have a 20-inch burnishing path and a low-amp, cool-operating, 1.5-horsepower motor. All are housed in a patented, one-piece, rotationally molded housing that minimizes torque and vibration, making these machines durable, ergonomic, and a true value.
