Foodservice Group Honors Crown Mats and Matting for 20 Years of Membership

NISSCO Restaurant Dealer Group, Inc. ("RDG"), a nationwide network of independent, wholesale dealers of restaurant and food-service equipment and supplies, has honored Crown Mats and Matting with a plaque in recognition of the company's 20 years of active membership.

Crown Mats and Matting, which was founded by R.P. Johnson more than 60 years ago, is one of the largest matting companies in North America. The company manufactures a variety of matting systems, with many engineered specifically for the restaurant and food-service industry.

According to Christopher Tricozzi, Vice President of Sales and Marketing for Crown, some of these mats include systems for grocery stores; image mats that allow food-service establishments to "private label" their matting systems; and heavy-duty, interlocking, antifatigue mats for use in restaurant and commercial kitchens.

“We are honored by the recognition and have long valued our association with NISSCO RDG,” says Tricozzi. “They have a very loyal and established membership in the food-service industry because of their excellent service and commitment to both their distributors and end-customers.”

Tricozzi adds that Crown is involved in several other market sectors including health-care, retail, hospitality, and of course the janitor industry. The company plays an active role in these industries and their related associations.

About Crown Mats and Matting

For more than 60 years, Crown Mats and Matting has been a pioneer in the development and manufacture of matting products. Beginning with the invention of walk-off matting by the company’s founder, R.P. Johnson, the company now has the most diverse matting product line offered in our industry. Crown sells matting through an extensive network of highly trained sales representatives in all 50 states. These sales experts are familiar with the features and benefits of all matting systems and are able to help their clients find the right system for virtually all applications.
