It's the Heat that Makes the Difference

The all-new Boxxer 323 from HydraMaster has a 23-hp motor that allows technicians to clean hard-surface floors and pressure wash surfaces with up to 2,500 psi of HEATED water.

Most truckmounts heat solution up to 1200 psi - then switch to cold water.

Heat improves cleaning effectiveness, so surfaces are cleaned faster, more thoroughly, often with less chemical, and with better results.

The Boxxer 323 is perfect for residential, commercial, restoration, and pressure-washing jobs - and helps build your reputation as the best in your area.

For more information, visit www.hydramaster.com, or call toll-free: 800-426-1301.
