New Director Of Sales For Hydramaster

HydraMaster announces that Wayne Boone has been selected as the company's new director of sales. Boone replaces Bill Jensen, who recently retired.

"Over the past nine years at HydraMaster, I've been product manager, engineering manager, and an equipment designer," Boone said. "You could say I know the carpet cleaning business inside and out."

According to HydraMaster General Manager Doug Hauff, this is exactly why Boone was selected. "We could not have found a more perfect candidate," Hauff said.
