says Tom Morrison, vice president of marketing for Kaivac. "Without question, Bob is an innovator and under his direction our company and its products have always been viewed as pacesetter."

Continuing as a trendsetter, Kaivac is now directing a great deal of its energy and resources into the science of cleaning, working with the Cleaning Industry Research Institute (CIRI) as well as leading scientists and industry experts to measure, prove, and improve the effectiveness of cleaning.

"We believe this is the new direction for our industry," says Morrison. "We believe the future trend for our industry is developing cleaning products that can be scientifically proven to be effective at protecting health and hygiene, as well as being environmentally responsible."
