**Press Release Date:** November 14, 2007

### **Cleaning System removes bacteria from surfaces.**

KaiFly System combines microfiber window squeegee and motorized sprayer. It was developed to clean countertops, walls, and partitions that contain biopollutants such as bacteria, MRSA, norovirus, and other infectious agents.

---

### **Removes 80 to 85 Times More Bacteria from Surfaces**

With growing concerns about MRSA, norovirus, and other deadly infections, it's good to know a system has been developed that has been tested and proven to clean surfaces and remove these harmful biopollutants. The all-new, patent-pending KaiFly, developed by Kaivac<sup>®</sup>, the No-Touch Cleaning experts, cleans countertops, walls, and partitions effectively, removing 80 to 85 times more bacteria than conventional "wipe" methods. Combining microfiber, a window squeegee, and a motorized sprayer, the KaiFly is ideal for protecting human health-and it does it in half the time.

About Kaivac, Inc.

Kaivac, Inc., the originator of No-Touch Cleaning, is on a mission to eliminate the world's toughest cleaning problems with breakthrough products and methods. By putting themselves in the workers' shoes, they develop a unique understanding of building maintenance problems that

allows them to engineer innovative, worker-friendly solutions to make workers' jobs safer, faster, and more satisfying. According to Bob Robinson Sr., founder of Kaivac, Inc., "Kaivac does for the custodian what the bulldozer does for the ditch digger-moves more dirt, in less time, with pride." For more information on the company and its products, call 1-800-287-1136 or visit its Web site at [www.kaivac.com](http://www.kaivac.com).
