LIGHTWEIGHT POWERHOUSE MAKES CLEANING A BREEZE

Tornado's new CK LW 13/1 HEPA-filtered vacuum cleaner is a powerhouse in disguise. Weighing just eight pounds, this heavy-duty machine delivers an astonishing 160 CFM (cubic feet of airflow per minute).

With dual-fan technology, the 13/1 tackles the toughest vacuuming tasks, and because it is so lightweight, improves worker productivity while virtually eliminating fatigue and injury.

Along with HEPA filtration, the 13/1 comes with the new CleanBreeze filter bag, a unique filter bag that traps soil while ensuring maximum airflow.
