New Burnishers Are Durable, Feature Light, and Cost Effective

Tornado® introduces a new line of high-speed burnishers providing unmatched performance, effortless ease of handling, and durability—all at extremely competitive price points.

The P Series Glazers™ come in two models: the P1600, which delivers 1,600 rpm, and the P2000, 2,000 rpm. Both machines have a technologically advanced weight-distribution system that helps the machine glide over floor surfaces and ensure a smooth, even high-gloss shine.

The 1.5-horsepower cool-operating motor provides consistent rpm speed, and all internal components and electronics are enclosed for user safety and long-lasting performance.

For more information, visit www.tornadovac.com, or call toll-free: 800-VACUMMS.
