Waterless Co.

1050 Joshua Way
Vista, CA, 92081, USA

Press release date: September 14, 2011

[View detailed contact information.](#)

Good news! After four years of serious water shortages, the Long Beach Water Department has put an end to many water use restrictions.

The official explanation for this development is heavy rains. However, the water department also says water conservation on the part of many Long Beach water users has also helped decrease water demand.

For instance, Cal State University-Long Beach has planted drought-tolerant vegetation and installed more efficient landscape irrigation systems to help reduce water consumption.

In addition, the university has installed more than 300 waterless urinals manufactured by Waterless Co. Inc., which have helped the school save more than 10.5 million gallons of water and \$42,000 a year in water costs.

The cumulative effect of water conservation and abundant rain has helped this district address its water challenges today and possibly into the near future.

About Waterless Waterless, Co., Inc. has established a reputation as an innovative manufacturer, serving the building, plumbing and janitorial industry for over 15 years. Based in Vista, Ca, Waterless Co. offers quality, innovation and expertise in water conservation and high efficiency products for building owners with a full line of Waterless No-Flush urinals, cleaning liquids, and cost saving accessories.
