Now Even Greener

The modules developed by GreenGrid® Green Roofs are now even Greener and more environmentally responsible. Once made of 60

percent recycled, high-molecular weight polyethylene, now all GreenGrid modules are made of totally *100 percent* recycled materials. This makes the GreenGrid modular system even more environmentally friendly, helping to make Green roof technology more sustainable than ever before.

For more information, visit <http://www.greengridroofs.com> or e-mail Greengridroofs@westonsolutions.com.

About GreenGrid® Green Roof System

GreenGrid® Green Roof System a business of Weston Solutions, Inc—a leading environment and redevelopment firm delivering comprehensive solutions to complex problems for industry and government worldwide. Employee-owned, the company's services encompass environmental remediation, redevelopment, and management and compliance. Its emphasis on restoring resource efficiency to its clients' operations — including land, air, water, facilities and staff — ensures that clients derive maximum value from their resources.
