One Machine for Multiple Floor Surfaces

Tornado introduces the all-new BR 13/1 MW floor machine.

This machine is particularly effective at cleaning hard surface floors, porous tiles and hard-to-reach grout—even escalators. Side brushes are also available for effective edge/corner cleaning.

And, it can be used to clean carpets—using environmentally responsible, *no*-moisture encapsulation technology—as well as to scrub, clean, and dry hard-surface floors.

Effortless to use, transport, and maneuver, solution changes are fast and easy. And the machine is quiet, minimizing

operator fatigue and helping to increase worker productivity.

For more information, visit www.tornadovac.com, or call 800-VACUUMS.

Available For Interviews And Industry Commentary:
Tornado® President Michael Schaffer is available for interviews and industry commentary by calling (708) 867-5100
