PF57 wet/dry vacuum from Powr-Flite

May 28, 2010 – The PF57 wet/dry vacuum cleaner from Powr-Flite Direct has a 20-gallon, 18-gauge steel tank powered by dual motors, ensuring maximum performance and minimum clogging.

Simple to use and versatile, the PF57 has a swivel hose connector allowing 360-degree hose rotation and a “tip-and-pour” feature for easy water disposal.

According to Powr-Flite Direct, the PF57 is perfect for rental customers performing floor care, cleaning up spills, and vacuuming up dry debris.

To protect user health, the PF57 has a multistage filtration system to prevent dust from becoming airborne.

For more information, please visit www.powr-flite.com or call (800) 880-2913.
