

Walk-Behind Sweeper provides 26 in. wide cleaning path.

March 9, 2012 - Operating on sealed 24 V batteries, Model SWB 26/8 provides sweeping speed of 26,000 sq-ft/hr. Unit moves between carpet and hard-surface floors, picking up all types of debris, including sand, popcorn, packaging material, tags, and clips. Featuring bagless design, SWB 26/8 uses overthrow sweeping technology to optimize utilization of waste container capacity. Main broom has chevron bristles and is height-adjustable, while side-mounted brush is raised/lowered by hand controls.

Another New Spin on Cleaning

Tornado has done it again with another new spin on cleaning: the SWB 26/8 Battery-Powered Walk-Behind Sweeper.

The cordless SWB 26/8 moves effortlessly between carpet and hard-surface floors. Faster and quieter than most wide-area vacuums, the SWB 26/8 has a 26-inch-wide cleaning path and easy maneuverability, and it picks up all types of debris—even hard-to-get items such as sand, popcorn, packaging material, tags, and clips.

As a bonus, the Tornado SWB 26/8 is bagless and collects into a hopper...saving money on bags.
