Product Brief

The Whitest Green Paper Towels Around

Pro-Link introduces Pro-Link Ultra White™, a new line of superior-quality, sophisticated-looking, and Green Seal® certified paper roll and folded towels.

Unlike many other green paper products, Pro-Link Ultra White towels are brilliantly white adding a touch of luxury to any restroom facility. That's because these towels are made from superior quality, 100 percent recycled wastepaper—they more than exceed EPA guidelines for post-consumer waste.

Designed for high-end facilities, Class-A buildings, and upscale hotels and restaurants, they are soft and provide exceptional absorbency. These quality paper products come with either consumer-like embossing or floral patterns, giving them an elegant look and feel.

They are made from 100 percent recycled paper and meet Green Seal's stringent environmental standards for paper towels and tissue (GS-9 and GS-1, respectively), making them the perfect addition to any Green facility as well.

Fitting a variety of dispensers, Pro-Link Ultra White products are available in bath tissue, roll towels and multifold or C-fold towel designs. They help you make your customers' facilities luxurious, Greener, healthier, and more environmentally responsible.

For more information, visit www.prolinkhq.com or call 1-800-LINKS.
