Hand Dryer Helps Restroom Makeovers

Cannon Hygiene introduces a fast—dries hands in just 12 seconds—and attractive new hand dryer. The Dyson Airblade brings style and elegance back into the restroom.

More facilities — answering public demand — are incorporating stylish features into restrooms, and the Dyson Airblade is the perfect addition. Dyson Airblade, the first hand dryer to be certified by NSF International*, features:

- A sleek design, with anti-microbial additives integrated to reduce bacterial and fungal growth

- Touch-free drying, minimizing waste and encouraging use
- Noise suppression, silencing technology integrated into the motor housing and ducting

For more information, email info@cannonhygiene.us

** NSF International, formerly the National Sanitation Foundation, is an independent, non-profit organization committed to public health protection.*

###

About Cannon Hygiene USA

Cannon Hygiene is one of the world's top hygiene services businesses. Based in Lancashire, England, it is responsible for maintaining health and hygiene standards for some of Britain's royal households including Buckingham Palace.

Today, the company's products are found in more than 30 countries around the world. It is now bringing its expertise to America's shores.

Cannon Hygiene's wide range of products and services are tailored to the needs of companies and organizations large and small. Its products and services ensure that that restroom hygiene is maintained at a constant and controlled

level, specific to the needs of each facility. It is particular interested in the needs of women, especially when it comes to the disposal of feminine hygiene products.
