The Oxford Hotel Denver...What Makes it so Green

Posted by waterlessco in Uncategorized. Tagged: environmentally preferable purchasing, Green Buildings, Sustainability, water, Water Conservation, waterless no flush urinals, Waterless Urinals. [Leave a Comment](#)

All bedding is made from bamboo-cotton blends, and bathroom vanities are crafted of recycled glass. The flooring is manufactured from cork, and other materials were selected from sustainable sources or for their environmental friendliness.

Green features in rooms

- 1. Pillows contain Talalay latex filling.**
- 2. Mattresses are made with soy-based foam and hypoallergenic wool lining.**
- 3. Duvets contain filling created from recycled plastic bottles.**
 - Throws and towels are made of a bamboo-cotton blend.**
- 4. Sinks and showers reduce water flow.**

5. Organic soap and shampoo are provided in refillable bulk containers.

6. Showers and vanities are created from recycled glass tile.

- Dual flushing toilets in guest rooms and waterless urinals in public restrooms save water.

7. Countertops in guest rooms are made of concrete — sand, rock and cement.

- Recycle bins are in each guest room.

• Individual climate controls in each room reduce energy use by allowing guests to set temperature.

- Energy Star appliances increase energy efficiency.

• In-room bulk coffee ground by a local roaster eliminates small-serving coffee pouches, reducing waste. Chemical-free cleaning products

The ElectroCide system creates cleaners using electrolyzed water technology. it mixes salt and water into a solution that passes through a low-voltage electrical field and two membranes. The result: two safe, effective, cost-saving cleaning solutions, a sanitizer and a degreaser, used throughout the hotel. Notepads and pens

- Locally made reusable writing boards filled with loose-leaf paper in conference rooms reduce wasted paper from partially used legal pads. Lighting

100 percent compact fluorescents. Flooring

Cork flooring in bedrooms provides insulation and originates in forests managed using sustainable practices. Green features in bar / restaurant

- Captain's table and wood ceiling accents made from recycled wood products.

• Brushed aluminum banquet tables eliminate need for linen table cloths, reducing laundry loads. Dishwashing / Laundry

Ecolab dishwashing and laundry products reduce rinse cycles, saving water. Green features buildingwide or in general areas

- **Waterless urinals in public restrooms.**

• all power comes from renewable-energy programs.

• Cleaners made from salt, water and electricity in electrolytic process replace all chemical cleaning products. (See graphic).
