COEUR d' ALENE, ID -- U.S. Products, a manufacturer of professional carpet cleaning, floor care, and restoration equipment, has named Bryan Thomson as the company's new sales training manager.

Before coming to U.S. Products, Thomson worked for Turbo Force International, which also owns Clean Force International. Based in Phoenix, AZ, the company manufactures hard-surface cleaning equipment. Thomson served as the company's vice president of sales and as a trainer.

"What has always impressed me about U.S. Products is the quality of their equipment as well as how innovative it is," says Thomson. "They were one of the first companies to introduce a dual-surface machine that can clean carpets as well as hard-surface floors."

Steve Hanig, Vice President of Sales for U.S. Products, says Thomson has already proven himself as a quality trainer.

"His seminars are rich with information and he makes sure everyone fully understands what he is trying to teach them. He is a welcomed addition to our team."
