

Weekly Product Showcase

June 10, 2011 — Stay up to date on the industry's newest products and services from these ISSA members.

Back Up the Truck

With its new Kubota engine, the **Titan 575[®]** truckmount from **HydraMaster** meets the U.S. EPA's new emissions requirements and outperforms the engine it has replaced. Two-wand capabilities improve productivity, while vacuum power, pressure, and heat are fully adjustable to suit any carpet-cleaning application. For more information, visit www.hydramaster.com.
