2,500 Rotations...of Performance

The 2500B Clean-Air Glazer™ from Tornado Industries® produces 2,500 rpm of brushing speed performance from its powerful 2.5 hp motor.

This is one of the premier burnishers in the industry, producing that sparkling “wet look” shine so many facilities ask for.

The 2500B has a rugged roto-molded body, has a unique slope design for unobstructed views, and comes complete with batteries, charger, and 20-inch

pad holder.

The 2500B would leave its competitors in the dust—if it wasn't for its twin filters that trap contaminants and protect indoor air quality.

For more information, visit www.tornadovac.com, or call toll-free: 800-VACUUMS.
