UK Technical Director Wins Carpet Extractor at Connections Tradeshow

Coeur d'Alene, ID - Dr. Angnes Zsednai, Technical Director for the WoolSafe Organization, was the surprise winner of a brand-new King Cobra 500 model carpet extractor from U.S. Products at this year's Connections Tradeshow, which was held September 28 through October 1 in Las Vegas, NV.

The Connections Tradeshow is the only U.S. tradeshow specifically for the carpet cleaning and restoration industry. Each year it attracts attendees and exhibitors from around the globe.

As part of the annual festivities, a lunch is held during which several recognition awards are given out to industry members. U.S. Products has given away a new carpet extractor to a lucky attendee for several years.

"I am thrilled to win the machine, even if we don't actually clean carpets," says Dr. Zsednai.

Based in the UK, WoolSafe provides performance standards for products used to clean and maintain wool and synthetic carpets and rugs. The organization awards certificates of approval to those carpet cleaning products and companies that meet their performance standards.

"However, we will be using the King Cobra in our testing lab, where it will be a welcome addition," adds Zsednai.

Mark Baxter of U.S. Products awarded the machine to Dr. Zsednai.

Said Baxter, "We have been a strong supporter of Connections and the carpet cleaning industry for years. It is always an honor for us to give away one of our machines at this show."

About U.S. Products

U.S. Products has been manufacturing cleaning equipment for carpeting, floors, draperies, upholstery, and restoration for more than 25 years. The company is well known for its innovative internal heating systems, which deliver 212°F at the wand tip; its top-quality components; and its solid-state circuitry, which allow for precise operation and equipment control.
