## U.S. Products Introduces Line of Cleaning Chemicals

Staff Writers

*U.S. Products, a market leader in developing professional carpet, floor, and restoration cleaning equipment, introduces an entirely new Professional line of cleaning chemicals. The cleaning chemicals are engineered for use with portable and truck-mount extractors and for low-moisture carpet cleaning.*

These cleaning chemicals are specially formulated for removing soil and contaminants.

The new Professional line of cleaning chemicals includes:

- Heavy duty acid and alkaline tile and grout cleaners
- A detergent free carpet cleaner and rinse that has already been approved by the Carpet and Rug Institute (CRI)
- A detergent free heavy duty degreaser
- Dry-cleaning solvent
- Carpet Spotter and deodorizer
- Crystal defoamer

The cleaning chemicals are engineered for use with portable and truck-mount extractors and for low-moisture carpet cleaning.

"Our goal is to combine the best cleaning equipment with the best chemistry to help our customers be successful," says Nick Wiebe, Marketing Manager at U.S. Products. "We have a complete line of equipment and now a complete line of chemicals to deliver a superior cleaning package for deep cleaning carpet, upholstery and hard surfaces."
