Wet/Dry Vacs Are Versatile and Cost Effective

Powr-Flite introduces two new wet/dry vacuums, the PF 56 and PF 58, the most versatile and cost-effective tank vacuums available anywhere.

The PF 56 has a 1.6 hp motor generating 114 cfm and 100-inch waterlift. The PF 58 has two 1.6 hp motors and produces 192 cfm and 100-inch waterlift.

Use for vacuuming both dry and liquid spills. It's also perfect to collect slurry and rinse water when refinishing floors.

Models come complete with all the tools necessary to tackle any kind of wet/dry vac application.

For more information, visit www.powr-flite.com, or call toll-free: 800-880-2913.

About Powr-Flite

Established more than 40 years ago, Powr-Flite manufactures a full line of floor-care equipment and carpet extractors for the professional cleaning industry. Based in Fort Worth, TX, the company has over 20 patented designs and its products are recognized throughout the world for their innovation, durability, quality and performance. Their products are marketed directly to end-use customers as well as through distributors throughout the North America, Europe and the Far East.
